Re: Bison Belong

The Town of Canmore has always been committed to preserving the environmental integrity of the Bow Valley. The rich heritage of this special place, which includes human development as well as native wildlife species, has been one of the determining factors in the planning of our community. It is reassuring to see this project moving forward which will result in the re-introduction of Bison to Banff National Park and the completion of a long missing link in the Bow Valley ecosystem.

Good Luck with this great project and please keep us informed of your progress.

Mayor Ron Casey

Town of Canmore
